

3. Water Harvesting in urban areas
4. Watershed management

Each of the sessions will have interaction with participants. Their interaction would go a long way in framing detailed guidelines for the States and the country.

PROGRAMME

Inauguration	10-11.15
Water availability-Demand	11.30-12.15
Traditional water harvesting practices	12.15-13.15
Water harvesting Urban areas	14.30-15.30
Watershed management	15.30-16.30
Valedictory function	16.45-17.30

PARTICIPATION:

Experts from various Government Organizations/Undertakings concerned, Educational Institutions and Consultancy Organizations are invited to participate in the deliberations of the workshop. This will enable the experts to fine tune the challenges of new millennium in the fast changing technologies.

REGISTRATION:

Registration of delegates will be made upon advance payment of registration fee as indicated below:

Corporate Members of IEI	Rs. 250/-
Non-Corporate Members (individual)	Rs. 500/-

Delegates from the Govt. / Pvt. Organizations / Educational

Institutions Rs. 500/-
Students Rs. 200/-

PAYMENTS:

All payments shall be made through A/C Payee Cheques (local delegates/Organizations) drawn in favour of "The Institution of Engineers (India), Ahmedabad" payable at any of the scheduled Bank at Ahmedabad, India.

Venue:

The Workshop will be held at the Institution of Engineers (India), Gujarat State Centre, Bhaikaka Bhavan, Ahmedabad on 5th December 2014.

Organizing Committee:

Chairman: Shri S.J.Desai, FIE, Chairman, GSC
Org. Secretary: Shri C. V. Nadpara, FIE
Shri O T Gulati, FIE, Chairman WMF
Shri N B Vasoya, FIE, Council Member, IEI

The Institution of Engineers (India)

"95 Years of Relentless Journey towards Engineering Advancement for Nation-building"

One-Day Workshop on Water Conservation

December 5, 2014

Organised by:

**The Institution of Engineers (India)
Gujarat State Center**

Under the aegis of
**Agriculture Engineering Division
Board, IEI**

In association with
Water Management Forum

**Water Resources Department,
Government of Gujarat**

Venue: Ahmedabad

ABOUT THE INSTITUTION OF ENGINEERS (INDIA)

The Institution of Engineers (India) or IEI is the largest multidisciplinary professional body that encompasses 15 engineering disciplines and gives engineers a global platform from which to share professional interest. The IEI has membership strength of nearly 0.7 million. Established in 1920, with its headquarters at 8 Gokhale Road, Kolkata - 700 020, IEI has served the engineering fraternity for over nine decades. In this period of time it has been inextricably linked with the history of modern-day engineering.

In 1935, IEI was incorporated by Royal Charter and remains the only professional body in India to be accorded this honour. Today, its quest for professional excellence has given it a place of pride in almost every prestigious and relevant organization across the globe. IEI functions among professional engineers, academicians and research workers. It provides a vast array of technical, professional and supporting services to the Government, Industries, Academia and the Engineering fraternity, operating from over 104 Centres located across the country. The Institution has established R&D centres at various locations in the country and also provides grant-in-aid to its members to conduct research and development on

engineering subjects.

IEI conducts Section A & B Examinations in different Engineering disciplines, the successful completion of which is recognized as equivalent to Degree in appropriate field of Engineering of recognized Universities of India by the Ministry of Human Resources Development, Government of India. Every year as many as 90000 candidates appear for these exams. For details, please see: www.ieindia.org.

The **Gujarat State Centre** has been one of the active Centers of the Institution of Engineers (India) which is engaged successfully translating the objectives and ideals of IEI into practice.

ABOUT WATER MANAGEMENT FORUM

With a view to bringing awareness among the users about the scarce resource and its conservancy & judicious use, a national forum--Water Management Forum (WMF) was established by IEI at Ahmedabad. The WMF is actively organizing seminars on Water conservancy and management.

ABOUT THE SEMINAR

Water is the elixir of life. But it is not available in abundance on earth. On the other hand, water demand is increasing exponentially due to development going on at a rapid pace. Not only industrialisation, but urbanisation is putting lot of strain on

our already strained water resources. It has therefore become extremely necessary to conserve water. We can conserve water in rural and urban areas by following recharging technique saving every drop of water that falls on earth. Our country has been practicing water conservation since ages. It is intended to revisit all these methods and to explore the possibility of reviving the old culture wherever found relevant.

This year has been decided to be celebrated as Water Conservation Year by the Government of India to underline the importance of Water Conservation and therefore Gujarat State Center has decided to organise this one day workshop under the aegis of Agriculture Engineering Division Board of IEI and Water management Forum of IEI. The workshop is going to be attended by the practicing engineers from urban as well as rural area and experts involved in making this approach applicable in the country. The workshop is proposed to be organized over one full day with technical brainstorming sessions besides the Inaugural and Valedictory Functions. The **sub themes** :

1. Our water resources, demand, future projections and water conservation in our day to day use
2. Traditional water harvesting practices in different parts of the country
