Government of Gujarat has declared three Vishwakarma Merit Medal Awards for the brilliant students of Civil, Mechanical and Electrical Engineering branches, who have secured highest marks in the final Degree Examination amongst all Universities of Gujarat State during final Examination of the year 2016-17.

Vishwakarma Merit Medal Awards of the Government of Gujarat were awarded to the following bright students:

<b>Sr.No.</b>	<b>Name of the Recipient</b>	<b>Engineering Branch/Discipline</b>
1.	SAVALIYA ARMAN LAXMANBHAI DHARMSINH DESAI UNIVERSITY, NADIAD	CIVIL ENGINEERING
2.	PATHAK MAULIKKUMAR DHARMSINH DESAI UNIVERSITY, NADIAD	MECHANICAL ENGINEERING
3.	ARORA MANOJ ASHOKKUMAR GUJARAT TECHNOLOGICALUNIVERSITY, AHMEDABAD	ELECTRICAL ENGINEERING

**XIII      ENGINEERS DAY**

49<sup>th</sup> Engineers' Day was celebrated by Gujarat State Center at Saffrony Institute of Technology, SPB Patel College of Engineering, Mehsana to commemorate the birth anniversary of Bharat Ratna Sir M. Visvesvariya on 15<sup>th</sup> September 2016. Shri Sunil Shah, Chairman, Gujarat Knowledge Society delivered a lecture cum presentation on the theme "Skill Development for Young Engineers to Reform the Core Sector: Vision 2025". Speaking at the occasion he said there is tremendous pressure in restructuring global economy by means of global flow of goods, services and knowhow, when some industries decline as well as new avenues of opportunities get created. This in turn creates the demand for rescaling of those redundant workforce as well as skill updation and training and development to promote new skills for those newly employed in new industries.

He further said that it is heartening to see that our country is churning out more than a million engineering graduates year after year through various engineering degree and diploma institutions. The number is fine, but where do we stand in quality vis-à-vis the world? When we have the advantage of demographic dividend, the same should not be got lost. Education and skill development has to go concurrently with the employment generation. Today, Engineers need to reinvent the zeal of innovations by digging in to our past and create winning innovative sustainable solutions for the future. I am informed that The Institution of Engineers (India) is focusing more and more on innovations and skill development and that is a good sign for the country to march ahead with indigenous solutions.

He further stated that technology fusion is an emerging methodology to integrate potential technologies among different disciplines, and it is also viewed as an effective approach to assisting firms respond to the difficult environment in which they are operating. Knowledge fusion is also an emerging methodology to improve organizational knowledge creation ability that has been introduced to construction industry as by dynamically transform implicit knowledge and explicit knowledge of an organization. To promote technology fusion, it is essential to have a structured way with clear goal, concept and strategy.

Governments across the states have taken some initiatives to address the major challenge of scaling up disparate skill development initiatives of different departments. Within a short span of time of less than ten years, a lot of skilled manpower is need to be developed, required by the market driven approach. The requirement of skilled manpower in all the major sectors of the country is not only a matter of national urgency, but also it is increasing in scale. However, Government of India has set a target to impart the necessary skills to 500 million people by the year 2022. The five sectors, which are identified with the expectation to create majority of employment are infrastructure, auto, building and construction, textiles and transportation. Now, like other employment sectors, shortage of required skills is one of the major constraints for the pass out engineering cadre for continuing growth of Indian economy. Different employer surveys addressed this knowledge gap and emphasize upon analysis and development of the classified skills for improved productivity. In manufacturing, IT, infrastructure, power sector, engineers play a crucial role. In different real life situations, there arises unmet demand of skilled manpower. Different national and international bodies have carried out survey and analysis on this growing aspect of engineering fraternity and expressed concerns about the skills and knowledge at all level of workforce. As per the analysis of employer's feedback, specific skills can be categorized as core employability skills, communication skills and professional skills.

Shri S.J. Desai, Chairman, Gujarat State Center welcomed Dr Shah earlier and wished all engineers present a very happy Engineers Day. He paid glorious tribute to Sir M. Visvesvariya. Committee Member of Gujarat State Centre & Principal, Saffrony Institute of Technology Dr A. P. Vyas presented the Life Sketch of Sir Visvesvariya. A film on the life of Sir Visvesvariya was also shown. Prof. Viren Patel, Adviser IEI Students' Chapter, Computer Engineering Branch, S.P.B. Patel Engineering College, Saffrony Institute of Technology, Mehsana proposed the vote of thanks.

**A "Information Desk"** was installed at the venue place to highlight various activities of IEI and privilege of the membership of the IEI, like Chartered Engineer and also provided brief information about AMIE exam etc. and displayed various publications forms and newsletters etc.
