

Activity Based Mathematics Workshop

Summer Camp

Attend 4-day Mathematics workshop by renowned researcher Prof. Chanchal Dass, FIE, to learn & master the revolutionary new technique of mathematical problem solving.

At Institution of Engineers

SUMMER CAMP ON Geometrical Interpretation of Mathematical Concepts

- Batch Timing** 10 am to 2 pm & 3 pm to 7 PM
- Venue** Institution of Engineeris,
Address: Bhaikaka Bhavan,
Near Law Garden, Ahmedabad,
Gujarat 380006
- Dates** 22nd - 25th May 2018
26th - 29th May 2018
For Class - XI and XII
- Fees** Rs. 3000 (For Students)
- Requirement** Participants should bring their laptop
(Compulsory)

Key features

Class XI is the bridge between the topics learned up to Class X and the topics that are required to be learned for higher studies. Many new topics are being introduced in this class such as set theory, functions, limits, calculus, mathematical reasoning, infinite series, complex numbers, etc. Similarly many new topics are being introduced in class twelve like matrices, determinants, vector algebra, linear programming, differential equations, etc. All these topics have been developed from thousands of years intellectual pursuits of great minds of our society. It is very difficult to learn all these topics overnight. With our innovative teaching technique and integrated teaching approach, students can learn these concepts in an easy and enjoyable way.

What will you get?

- Feel and realize “Mathematics is Easy”
- Get confidence to solve any mathematical problem.
- Learn Modeling, Animation and Visualization
- Strengthen foundation through clear understanding of fundamentals
- Be better prepared for higher career

About the speaker

Prof. Chanchal Dass, FIE

Mr. Chanchal Dass is a Fellow of Institution of Engineers (Mechanical Engineering) and Life Member of Indian Mathematical Society, American Mathematical Society, Society of Petroleum Engineers (SPE) and Society of Petroleum Geophysicists (SPG). He has published and presented numerous papers and attended various National and International Conferences, Forums and Seminars.

He is Managing Director of Dass SRL and Dass OTPL and is recipient of World Oil Award in the “Innovative Thinker” Category.

He has conducted series of Mathematics Workshops for Professionals, Engineering college Faculties and Students from Class IX to Post-Doctoral Level.
